Welcome back!

Dear reader,

Prepare for the final edition of the DRG4FOOD newsletter before summer!

This month, we are excited to present numerous opportunities from DRG4FOOD. In this edition, we introduce our recently published Toolbox—a set of solutions designed to help you build your digital projects in alignment with Digital Responsibility Goals. Additionally, the application period for Open Call #2 is still open to everyone who wants to be part of the solution! We are also seeking evaluators.

Discover more about these fantastic opportunities and upcoming events in this issue of DRG4FOOD!

Enjoy the read!

A database of digital solutions selected just for you!

DRG4 FOOD | Funded by the European Union

DRG4FOOD Toolbox

The DRG4FOOD responsible technology toolbox provides a Database of selected publicly available resources for more responsible digital food

ecosystem:

• open-source software
• platforms, tools
• standards and guidelines

All references are publicly available links to websites and code repositories from the original providers – developers, owners or license holders – of the technology.

The DRG4FOOD Toolbox is aimed at anyone in digital product, service and application development as well as developers and organisations contributing to solutions for the digital food ecosystem.
