

# DRG4 FOOD

## Boosting Trust, Transparency, and Responsibility in the Food System through Digital Solutions

### How can we create a data-driven food system that inspires trust throughout the food chain?

DRG4FOOD develops solutions that show how transparency in data use can improve food systems and encourage responsible data practices.

#### OUR RESULTS

##### Digital Food Podcast

Hear experts and entrepreneurs discuss food system challenges and solutions in our DRG4FOOD podcast!

##### DRG4FOOD comic book

A tool to explain data's importance in our food system to young adults and adolescents in an engaging & accessible way.

#### PILOT PROJECTS

DRG4FOOD funded 8 innovative and trustworthy digital solutions in food tracking, targeted nutrition and consumers' food choices.

##### DRG4FOOD toolbox

Open-source digital solutions mapped to food system needs and guided by Digital Responsibility Goals for building trustworthy, responsible solutions.

##### DRG4FOOD playbook

Guidance on applying Digital Responsibility Goals through guiding criteria, questions and recommendations.
